MORTFUND WEB PLATFORM PROPOSED UPDATE

MASS DONATION - MASS DONATION BUTTON

Mass Donation Button is an update on Mortfund that is meant for a registered Mortfund User(s) that wish to initiate Mass Donation to Existing Fundraising Campaigns under Mortfund Platform collectively, either to the General Country, States, Local Government Areas, Fundraising Selected Category. The Mass Donation Donor must first open Mortfund User Account, Fund the account by making Deposit of the Amount needed for Mass Donation and from the User Dashboard, the Donor will then "Click" on Mass Donation Button, input the Amount Per each fundraising (Uniform Amount), select Country, State, Local Government Area (L.G.A.), Fundraising Category to benefit from the Mass Donation and also Input the number(s) of Fundraising Campaign that will benefit out of the selected Country, States, Local Government Area, Fundraising Category.

Mass Donation is subject to Mortfund Administrative Approval from Backend, after the approval, system will then select Randomly the beneficiaries from the Existing Fundraising under the selected options.

Incase, if the Donor intention is to initiate Mass Donation for 100 numbers of Existing Fundraising and the numbers of the Beneficiaries from the selected options is not up to 100, or the Existing Beneficiaries Fundraising from the selected options is lower than the initiated number, the system will execute Mass Donation on the availability numbers from the existing Beneficiaries Fundraising selected options and refund the Donor account with the remaining Mass Donation Amount and to be reflected in Mass Donation Transaction History as (Refunded Mass Donation).

HOW MASS DONATION BUTTON WORKS

How Mass Donation Works

Fund Account: The Donor will fund his/her account by making Deposit to the Deposit Balance from the Dashboard.

Donation Amount (Per Existing Fundraising): The Donor will input the unit Amount for the Mass Donation. For example, if the Donor wishes to give out N500.00 to 50 Existing Fundraising Campaign, the Donor will multiply N500.00 by 50 which the total amount for the Mass Donation will be N25,000.00.

Number of Beneficiaries: Donor will input the number of beneficiaries that will benefit from the Mass Donation and the system will selection randomly from the selection options by the Donor. For example, if the Donor wishes to push Mass Donation for 50 Existing Fundraising Campaign, the Donor will input 50 under the Number of Beneficiaries option.

Select Country: Donor will select the country to benefit from the Countries option.
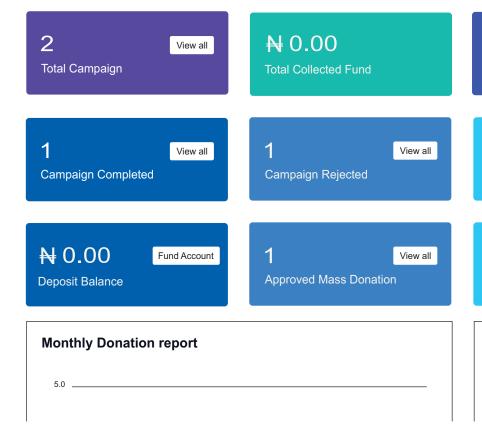

Select State: Donor will select the **STATES** available under the selected **Country** and the **State** will benefit from the Mass Donation and the selection can be for "All States". **Note:** Either "All States, or Single State"; No multiple State Selection.
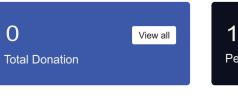

Select Local Government: Donor will select **LOCAL GOVERNMENT AREAS** available under the selected **State** to benefit from the Mass Donation and the selection can be for "All Local Government Areas". **Note:** Either "All Local Government Areas or Single Local Government Areas"; No multiple Local Government Areas selection.
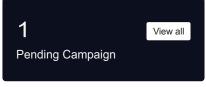

Donation Title: Donor to type in the "**Title for the Mass Donation**" e.g., Donor can wish to give his/her Mass Donation title as "**Help the Poor**" or any wish title.
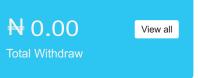

Donor Status: Donor can donate Mass Donation as Anonymous or Display the Donor's Name as registered with Mortfund.

Admin Approval: After completing the above, the Donor will click on "**Process Mass Donation**" while the Mass Donation wait for Approval by the Admin.
